Hi Jay,

I received feedback from the engineering assessor yesterday afternoon that the revised assessment is still in progress. There are no further questions at this time, so we are just waiting for the revised assessment documents. The day 90 on this case is today. Additional time will be required to revise the assessment, update the subsequent reports and review the regulatory decision.

You may request 15-day suspensions via email or telephone. Longer suspension must be submitted in writing through CDX. Let me know which you would prefer.

Best regards,

Bethany Olson

Has our additional information filing helped answer the questions you had?
Thank you,

Jay Bartley
